

Avanti Cares Promise for Change

Avanti is a proud member of 1% to the world Organization.
1% for the Planet. 100% for the people.

What that means

1% for the Planet is a global organization that exists to ensure our planet and future generations thrive. We do this through our mission to accelerate smart environmental giving.

Avanti's Involvement

Responsible business giving back to environmental nonprofits to create a healthier planet.

Solving issues that matter

We look to our trusted nonprofit partners for solutions to address the most pressing environmental issues of our time.

Nonprofits are able to operate in sectors including—and beyond—where traditional markets exist. They're able to address issues in a very specific and targeted way. And nonprofits are able to develop the necessary expertise to drive solutions in ways that other entities can't.

We are committed to building support for this essential work in six core issue areas: climate, food, land, pollution, water and wildlife. Learn more about each of these environmental issue areas below and discover nonprofits working in these specific areas.
